

# VIPER 30

## AREAS OF APPLICATION

- ✓ **Return systems**
- ✓ **Residual waste areas**
- ✓ **Barns**
- ✓ **Warehouses**

The Viper 30 is a flying insect killer with an electron trap, which impresses with its robust design and the materials used.

When designing the unit, the main focus was on durability, maximum reliability and quality combined with an excellent design.

The Viper 30 complies with worldwide safety standards. After it has been manufactured, it is subjected to numerous safety tests to ensure excellent quality.

The Viper 30 is easy to use. It can be fitted as a wall or ceiling unit.

Insects are attracted by 2 x 15 WUV-A lamps and killed with the help of the electric catch grid.

The dead insects fall safely into the large collecting container.

Cleaning and maintenance is easy thanks to the unique hinged housing.

- ✓ High UV attraction and insect attraction thanks to 4 x 15 W UV-A lamps
- ✓ Tool free service and maintenance
- ✓ Bi-directional unit
- ✓ Wall or ceiling mounting possible
